01 Product overview

The Cisco CBS350-24FP-4G-EU is a Business 350 managed switch that provides 24x 10/100/1000 full PoE+ ports and 4x 1G SFP uplinks, with a 370 W PoE+ (802.3at) power budget for phones, wireless access points and cameras. It delivers 56 Gbps of switching capacity and a forwarding rate of 41.66 Mpps, ensuring wire-speed performance for everyday business traffic.

Cisco Business 350 switches are fully managed devices with Layer 3 static routing, advanced QoS, rich security (802.1X, ACLs, DHCP snooping, IP source guard), IPv6 and support for Cisco Network Plug and Play. They can be configured via web interface or full CLI and centrally managed with Cisco Business Dashboard, giving growing businesses enterprise-like control at an attractive total cost of ownership.

The -EU suffix denotes the European power cord variant; hardware and features are identical to other regional versions. It is a dependable choice for offices, retail outlets, schools and growing SMB networks where powered endpoints such as IP phones, Wi-Fi access points and security cameras need to be supported.
