01 Product overview

The Eaton SR2POST25 is a 25U 2-post open-frame rack from the Tripp Lite Series SmartRack family, built to hold EIA-310 19-inch equipment in secure IT rooms, telecom closets and lab environments. Its external footprint is 1245 mm high, 516 mm wide and 121 mm deep, and it accepts rack devices up to 1219 mm deep. Eaton rates the aluminium frame for 363 kg of static load.

The open-frame design gives unobstructed airflow and full access to equipment and cabling from every side, ideal for secure rooms where lockable doors are not required. Multiple frames can be bolted together side by side.

The vertical mounting rails use threaded 12-24 mounting, with numbered rack spaces for quick installation. Toolless 0U mounting points accept vertical PDUs and cable managers without consuming rack units.

It ships flat for easy assembly with the supplied hardware. Eaton backs the product with a 5-year limited warranty.
