## 01 Product overview

The Intellinet 9U wall-mount 2-post open frame rack is a simple, economical way to house IT equipment in secure locations that do not need a lockable cabinet. The hinged front frame swings open to the left or right for easy access to the rear of panels and switches, while integrity bars add stability and tamper resistance.

Model 716185 is a 9U wall-mount 2-post open frame rack measuring 493 × 500 × 450 mm (H × W × D), finished in black RAL 9004. Usable installation depth is 400 mm. Maximum static load is 30 kg with the frame closed (10 kg with the frame opened).

Built from cold-rolled SPCC steel with antistatic powder coating, it can be wall-mounted or placed on a desk, offers 400 mm usable depth and ships flat-packed with 20 cage-nut sets. Typical uses are branch offices, remote sites, test benches and telecom, surveillance or AV installations. Intellinet backs the product with a three-year warranty.

### HIGHLIGHTS

- 9U wall-mount or desktop 2-post open frame
- Hinged frame swings open left or right
- Usable depth 400 mm
- 30 kg load (frame closed)
- Antistatic powder-coated SPCC steel
- Includes 20 cage-nut sets, three-year warranty

|          |                        |
|----------|------------------------|
| Warranty | 3 years (manufacturer) |
|----------|------------------------|

### 03 Engineered, delivered & supported by ServerInvest

#### Engineering & sizing

Selected and sized against your real IT load, room and redundancy targets.

#### Installation

Delivery, installation and commissioning by our engineers across Europe.

#### Certified processes

ISO 9001, ISO 14001 and ISO 27001 certified project delivery.

#### Service & support

Maintenance, spare parts and support from a single partner.
